

OIS[©] the Oregon Intervention System

Webinar Workshop:

- This workshop is being offered during the Coronavirus Pandemic as a way to provide training while still following “social distancing” restrictions.
- This workshop will be offered online for new hires only.
- All participants must have a computer with a camera and internet access.
- After this training, participants are required to attend a webinar where the OIS physical skills will be demonstrated.
- Once a participant has attended both webinars, they will receive a temporary/partial OIS letter. They will not be able to work alone with a person who has a PPI in their plan.
- Within 60 days of the “social distancing” restriction being lifted, participants must attend and pass an in-person training on the OIS Physical Skills techniques. They will then receive their OIS level G certification. The cost of this portion of the workshop is included in your registration fee.

A proficiency in English is a requirement for this workshop.
